## EDITORIAL

The writing of the editorial for a "Tech" Year Book has something of a finality about it. As we realize that our year at P.I.T.A. is drawing to a close, it is with difficulty that we choose words to express what is in our heart.

It is a well known statement that "He who sees deepest into the future looks with the realization that so much of today will never be left behind". Those who make the most of today accept these facts cheerfully; those who make little use of today reject them.

At one time or another, we all experience the fact that every day well spent becomes a day of pleasant memories to which we can look back with pride from the future. This is a book of memories. To some it will mean more than to others; to me it stands as a symbol of days spent in deepest enjoyment.

We cannot but appreciate the excellence of the training that we have received within these walls, under the guidance of a staff of instructors infused with an enthusiastic spirit of service. Besides, we have had an excellent opportunity to gain valuable experience by participating in such activities as the Students' Association, the Tech-Art Record, the Emery Weal, and Athletics. In these activities we have had the opportunity to work and co-operate with others, as well as to accept responsibility and leadership, important steps in the advancement to our future careers.

Through a sound student-staff relationship, the Tech-Art Record has long been one of the traditions of Tech. It is my hope that this co-operative spirit will continue to keep in stride with the rapid progress of the Institute. It is also appropriate to wish that every editor, henceforth, could have as congenial and as efficient an editorial staff in publishing future editions. To the entire editorial staff of students and instructors goes a "Thank you".

My sincere hope is that, in the days to follow, and through the years to come, you may turn these pages and live again your year at "Tech".

AL ANDRUCHOW,  
*Editor.*

## DEDICATION

This issue of the Tech Art Record is dedicated to opportunities which are available for "Prince" and for "Pauper" if they will only see.

Those of us who have high ambition and who see to the future can visualize the abounding opportunities opening along the paths of the technical students of today.

The Year Book editors wish to express their most sincere thanks to Mr. Clarke, Mr. Jorgensen, Mr. Yates, Mr. Overby, Mr. Blodgett, Mr. Middleton, Mr. Howard and all of the students who so generously gave us their assistance in the organization, the completion and the publication of this book.

**A Message to  
the Students from  
Hon. A. O. Aalborg**  
MINISTER OF EDUCATION

Education and training serve a two-fold purpose. On the one hand they provide the individual who pursues them with abilities and skills which make him a more effective, contented and prosperous person. He can have greater pride in his knowledge, his accomplishments and his contributions. But others profit also. As skilled and capable persons participate in the industrial, commercial, professional and social life of the community and the nation, they raise the level of total achievement to the advantage of all. The Institute of Technology and Art offers such education and training.

The rapidly growing industries of Alberta and other provinces of Canada have made heavy demands on the school for more artisans, craftsmen and special technicians. It is with satisfaction that we see these demands met and note that industry eagerly engages "Tech" students. A program of steady expansion is being supported to provide more accommodation and facilities at the Institute. The end of this expansion is not in sight. The importance of the Provincial Institute of Technology and Art and its graduates can hardly be over-emphasized in the changing scene of Western Canada.

I am very happy, therefore, to convey greetings to all students, to salute them, and to wish them every success in their chosen field.

**ANDERS O. AALBORG,**  
*Minister of Education.*

**A Message to  
the Students from  
E. W. Wood  
PRINCIPAL**

January 17th and 27th, 1956, marked the 250th and 200th anniversaries of the birth of Benjamin Franklin and Johannes Mozart respectively. In the years which have intervened the world has changed more completely and in more different ways than in any period of at least twice its length since the beginning of recorded history.

The contributions made by these two men were vastly different. Benjamin Franklin was a man of letters, a scientist and a statesman. Mozart was immortalized by his musical compositions. In a sense, one was the complement of the other. No one would dare to distinguish between the value of the contribution of each. Who would dare to attempt to assess them?

Because of the essentially technological nature of Institute courses it would be natural to assume that the interests of Institute graduates would tend to follow the scientific interests of Benjamin Franklin. In my farewell message to the graduating students of the year 1957, I should like to express the hope and wish that your development may be broad and full, and that as your lives unfold you will seek to develop and acquire cultural interests and pursuits. It is my hope that the cultural life of which Johannes Mozart was so eminent and worthy an example will, in time, hold as great an appeal for our graduates as do the technologies of Benjamin Franklin. Then, and not till then, will you have had a liberal education. Then and not till then will you be prepared to take your place in a world where technology is providing the means whereby man can enjoy more leisure and enter into, as never before, the enjoyment of cultural pursuits.

## FALL TERM STUDENTS' EXECUTIVE

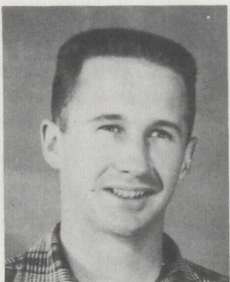

At this time it gives me great pleasure to thank all the students who voted for me and for the other members of the Executive. I would also like to thank all the students and staff for the support and assistance they have given the Executive during my term in office.

It is my sincerest wish that all of you who will be graduating this year will find the jobs you choose both interesting and rewarding, that life following "Tech" becomes rich socially, spiritually and financially.

DALE HARVEY, *President.*

## SPRING TERM STUDENTS' EXECUTIVE

During election week at "Tech" chaos reigns. Questions are in everyone's mind. Who will be elected? Will it be a hard-working, conscientious chap, a real go-getter, or will it be one of the more loquacious types who captivates all with his brilliant campaign speech and does little else?

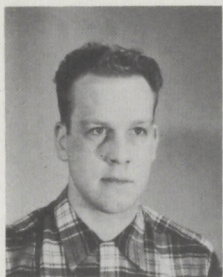

Many benefit from these elections. The student body receives their due in well-run activities spearheaded by their Executive. But what do the Executive members themselves receive? Holding office on Students' Council is more than just an honor and a privilege; it is a golden opportunity. Where else could one obtain so much experience in public speaking and debates, or in the learning of business procedure and co-operating with others? Where else could one meet, mix, and work with so many fine young men and women? From even these small observations it is obvious who benefits the most.

To the many students at Tech during the year 1955-56, I wish to extend my most sincere appreciation for granting to me the honor, privilege and golden opportunity of serving as their vice-president and later as their president.

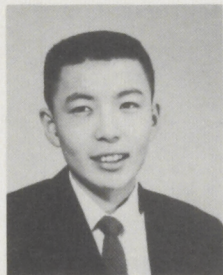

To the administration and staff, I extend, on behalf of the students and the Student Executive, our sincere vote of thanks for your guidance and direction of our many activities. Were it not for you, many of these golden opportunities would cease to exist.

# THIRD ANNUAL SCHOLARSHIP AWARDS DAY

Held Wednesday, November 7th, 1956, at 2:30 p.m. Chairman: Mr. E. W. Wood, Principal.

Guest Speaker:

MR. D. C. JONES

Superintendent, Natural Gas Operations, Hudson's Bay Oil & Gas Company Ltd.;  
President, Calgary Branch, Engineering Institute of Canada.

Scholarship	Awarded to
\$ 35 A. C. Fuller Scholarship—Art .....	DOROTHY KATIE OHE, Peers, Alta.
\$ 10 Alberta Drafting & Blue Print Co. Award—Art.....	ANNA WALESKY, Three Hills, Alta.
\$100 Alberta Provincial Command, Canadian Legion Scholarship—Veteran or child of veteran .....	EDWARD M. ANDRUSKY, Calgary, Alta.
\$150 Alberta Wholesale Implement Association Scholarship— Agricultural Mechanics .....	FRED G. BURTON, Claresholm, Alta.

## ALEX ROSS MEMORIAL SCHOLARSHIPS

\$226 Aeronautical Engineering .....	JAMES BARRY BRADLEY, Winnipeg, Man.
\$151 Agricultural Mechanics .....	JOHN PARKINSON, Retlaw, Alta.
\$211 Clothing and Design .....	SHARON POOK, Vancouver, B.C.
\$211 Industrial Electricity .....	METRO HUNCHAK, Edmonton, Alta.
\$211 Industrial Laboratory Technology .....	ROBERT JOHN TOONE, Calgary, Alta.
\$226 Machine Shop Technology .....	RAYMOND LEONARD BOTKO, Wynard, Sask.
\$211 Radio and Electronics Technology .....	RONALD J. GARDNER, Rimbey, Alta.
\$ 50 Calgary Business and Professional Women's Club Scholarship .....	NOT AWARDED for the Current Year.
\$150 Calgary Motor Products Scholarship— Automotive Service Engineering .....	BOB KEIZO SASAKI, Taber, Alta.
\$150 Calgary Power Ltd. Scholarship—Industrial Electricity .....	ROMAN YEWCHAN, Elk Point, Alta.
\$500 Canadair Aeronautical Engineering Scholarship— Aeronautical Engineering .....	GARTH SCHIEB, Calgary, Alta.
\$ 10 Canadian Art Galleries—Art .....	BILLIE ROY BROWNRIDGE, Calgary, Alta.

## CANADIAN WESTERN NATURAL GAS COMPANY SCHOLARSHIPS

\$ 25 Art .....	LESLIE GRAFF, Bashaw, Alta.
\$ 25 Art .....	HAROLD POPOFF, Kamsack, Sask.
\$ 25 Clothing and Design .....	MARCIA J. BLACKWELL, Calgary, Alta.
\$150 Machinery Technology .....	JAMES D. CUMBERLAND, Jaffray, B.C.
\$150 Central Scientific Co. Scholarship— Industrial Laboratory Technology .....	SEIGFREID DRAESNER, Calgary, Alta.
\$ 50 Crown Lumber Co. Scholarship—Construction Technology .....	NOT AWARDED for the Current Year.
\$100 Mrs. Frederick Charles Manning Memorial Scholarship—Art .....	DELI DANIEL SACILOTTO, Kimberley, B.C.
\$150 General Supplies Limited Scholarship— Automotive Service Engineering .....	JAMES E. McDERMOTT, Calgary, Alta.
\$ 25 Henry Birks and Sons Award—Art .....	DOUGLAS HECTOR HAYNES, Regina, Sask.
\$ 35 Hudson's Bay Company Scholarship—Art .....	WILLIAM R. HINMAN, Turner Valley, Alta.
\$150 James Smalley Scholarship—Radio and Electronics .....	ALLAN DALE HARVEY, Strathmore, Alta.
\$ 50 Local Council of Women Scholarship—Art .....	ARTHUR DALE WALTER, Bowness, Alta.
\$150 Maclin Motors Limited Scholarship— Automotive Service Engineering .....	EDWARD P. TONNESEN, Worsley, Alta.
\$150 Manning Eggleston Lumber Co. Scholarship— Construction Technology .....	J. RICHARD BLEWETT, West Summerland, B.C.
\$150 Northwest Industries Limited Scholarship— Aeronautical Engineering .....	HENRI CHABOT, Sherbrooke, P.Q.
\$ 10 Paint and Arts Supply Limited Award—Art .....	JOAN MARIE NISSEN, Irma, Alta.
\$150 R.C.A. Victor Radio Scholarship—Radio and Electronics .....	KENNETH WONG, Sedgewick, Alta.
\$150 Revelstoke Sawmill Co. Limited Scholarship— Construction Technology .....	W. GORDON STANLEY, Lammings Mills, B.C.
\$150 Robin Hood Flour Mills Limited Scholarship— Industrial Laboratory Technology .....	HEIDIE E. HORN, Montgomery, Alta.
\$250 Shell Oil Company Scholarship—Drafting Technology .....	HORACE, R. BAUER, Medicine Hat, Alta.
\$150 Sherri Gordon Mines Ltd. Scholarship— Industrial Laboratory Technology .....	ELIZABETH M. OLIPHANT, Calgary, Alta.
\$ 25 T. Eaton Co. Limited Scholarship—Art .....	KENNETH C. SAMUELSON, Calgary, Alta.

# SCHOLARSHIPS

## ALBERTA VISUAL ARTS BOARD SCHOLARSHIPS

Scholarship	Awarded to
\$250 Alberta Visual Arts Board Scholarship—Art .....	BILLIE ROY BROWNRIDGE, Calgary, Alta.
\$250 Alberta Visual Arts Board Scholarship—Art .....	WILLIAM R. HINMAN, Turner Valley, Alta.
\$250 Alberta Visual Arts Board Scholarship—Art .....	DOROTHY KATIE OHE, Peers, Alta.

## SCHOLARSHIPS AND AWARDS PRESENTED MAY, 1956

Scholarship	Awarded to
\$100 Department of Economic Affairs Scholarship— Food Service Training .....	HAZEL PENNY, Grande Prairie, Alta.
\$ 75 Department of Economic Affairs Scholarship— Food Service Training .....	MAY OLIPHANT, Calgary, Alta.
Bug Smalley's Radio Limited Award— Commercial Wireless Operating .....	TERENCE V. GIBSON, Clyde, Alta.
Drafting Set—Proebster (Corona)—Presented by Mr. J. Blair— Drafting Technology .....	WALTER H. CHRISTENSEN, Calgary, Alta.

# SPORTS AND ACTIVITIES

m

## I. O. T. A.

The meanings of the name I.O.T.A., the girls' society at Tech, is two-fold. It stands for "Institute of Technology and Art" and also indicates that girls are in the minority at Tech.

The present I.O.T.A. executive consists of: President, Marcy Blackwell; Vice-President, Joyce Budesheim; Secretary, Barbara Forster, and Treasurer, Jean McLenaghan. Mrs. Trussler is staff sponsor.

SWEET, EH!

## BADMINTON CLUB

We gladly report that the Badminton Club has had a very successful year. Many new acquaintances have been acquired through this organization as well as an excellent display of sportsmanship by all participants. The members had access to the Tech gymnasium on Mondays after school, Saturday mornings, and the Queen Elizabeth Junior High School auditorium Wednesday nights. Various tournaments were held after Christmas and we were well represented by our participants. I am sure that many more prosperous years are to follow.

ALLEN LAWRENCE.

## CURLING CLUB

This year has been one of the best our Curling Club has ever experienced. With twenty-three rinks promoting keen competition and good sportsmanship all participants were completely satisfied with the calibre of the games.

Many new friendships were formulated and old ones renewed as a result of the excellent turnout of both student and staff members.

The Annual Bonspiel was held during April to draw to a close one of our most successful and enjoyable seasons.

## HOUSE LEAGUE HOCKEY

The House League Hockey, though not starting till after Christmas, got off to a successful start. This year the league consists of 12 teams, and some very close games are played. If the weather permits, each team will play at least six or seven games, with the top four teams playing off for the championship.

## AGRICULTURAL MECHANICS' CLUB

The main purpose of the T.A.M. Club is to give its members a better understanding of the latest in farming methods and also create good fellowship among the students in agricultural mechanics.

Highlights of the activities for the 1956-57 term are two field trips to places of current interest to the farming industry.

CAMPAIGNING

## BANQUET

The 35th Annual Tech Banquet was held on February 1st, 1957 in the in the Palliser Room of the Palliser Hotel.

The room decorations provided by the Art Department created a gay atmosphere accented by the many table displays which depicted the work done by the various classes.

A very keen good-natured rivalry between classes resulted from a variety of class yells given from time to time during the banquet. The toastmaster, Mr. W. A. B. Saunders, who is Vice-Principal of the Tech, called on Mr. Dale Harvey, Student Council President; His Worship, Mayor Don Mackay; Student Speaker, Mr. Fred Owen, and Mr. Kunelius, representative of the Department of Education, to give short speeches. These talks were interspersed with entertainment supplied by Tech students.

After the banquet the floor was cleared and music for dancing was provided by Harold Saklofske's orchestra. Mr. Jorgensen, master of ceremonies for the dance, gave several nice prizes to winners of novelty dances. During intermission the Art Department boys entertained with an amusing fashion show.

Guests, staff and students had a very enjoyable time and congratulations are extended to the Banquet Committee, under the chairmanship of Ron Gardner for the success of this very memorable occasion.

## OUR LOSS, MT. ROYAL'S GAIN

## AERO CLUB

The Society of Aeronautical Students, formed four years ago, is one of the more active clubs in the Institute.

The S.A.S. boasts a membership of 100 per cent of the aeronautics students this year. At the bi-monthly meetings, club business is discussed and films or speakers are presented.

The activities of the Club were numerous this year and covered such undertakings as a complete link trainer instruction scheme; work on the Club's own Fauvel A.V. 36 glider; maintaining direct communication with members of the alumni; and, as in the past, a very active social year.

## LABORATORY TECHNICIANS' CLUB

The Industry Laboratory Technicians' Association, now in its second year, has a membership of 52 under the staff advisor, Mr. F. Cornett-Ching. The main item on the club's agenda is to endeavour to join the Chemical Institute of Canada as a junior member. Besides arranging the second annual club banquet, which is held late in February, the members are planning to sponsor a Tech dance. Other plans include the building of the table decoration for the Tech banquet, showing of technical films, and having guest speakers.

This year's executive consists of: Bob Toone, President; Joan Morton, Vice-President; Betty Oliphant, Secretary, and Alex Stelmack, Treasurer. Also on the executive are Bev Dallyn, Al Koroluk, Lorrain Waklich and Al Andruchow.

With the enlarged membership, the Lab Tech Club should enjoy a very successful year.

BETTY OLIPHANT.

## HOUSE LEAGUE VOLLEYBALL

Volleyball was again very popular in Tech this year. Getting off to flying start in November, and continuing through March, sixteen teams enjoyed and took part in the league. Owing to the limited gymnasium facilities and the large number of teams participating, time did not permit the finish of the league properly. However, playoffs among the top four teams were held when the league was terminated.

REACH, BOY

## ELECTRONIC TECHNICIANS' CLUB

The Society of Electronic Technicians started the year by designing a new crest. The Club Library has been added to, films shown and several electronic projects constructed, some of which were used in the display at the annual banquet.

Field tours and a club sponsored banquet and dance are planned for the future.

## TECH ORCHESTRA

During the 1956-57 term, the Institute again had its own dance band.

Practices were held every noon hour, with Mr. E. Wood of the Electrical Department staff in charge.

Noon hour dances were held in the Auditorium after the New Year. Much credit is due to the students in the band for their keenness at practice. The resultant good music was provided for the dances, which were very much enjoyed by the students of Tech and University.

The following are members of the band: Larry Hale (Electric), Joan Morton (Lab. Tech), Les Lehr (Radio) and Al Cameron (Auto Mech), E flat alto sax; Keith Christensen (Electric), Blake Gordon (Auto Mech) and Al Greenough (Ag. Mech), B flat tenor sax; Tim Thygesson (Auto Mech) and Bob Hahn (Radio), trumpets; Jim Smythe (Electric), trombone; Don Tunnacliffe (Auto Mech), piano; Howard Hudson (Radio), bass; Mr. E. Wood (Electric Dept. Staff), drums.

## HAM CLUB

This year the Ham Club was formed in November. Members have been receiving code instruction under supervision of the commercial wireless students during noon hours Monday and Friday and after 4 o'clock Wednesday in the E building. This is sponsored by Mr. C. M. Johnson, instructor of commercial wireless. An average of four outside stations a day are worked from our ham station "VE6IT".

"Ham" radio is a very interesting hobby as over a thousand members can tell you. A person gains a feeling of confidence when he receives his ticket and joins the ranks of the Amateur Radio Operators.

JACK SAWCHUK.

## TECH'S CHEERLEADERS

For the first time in the history of Tech, a cheerleader section of ten girls was organized this year.

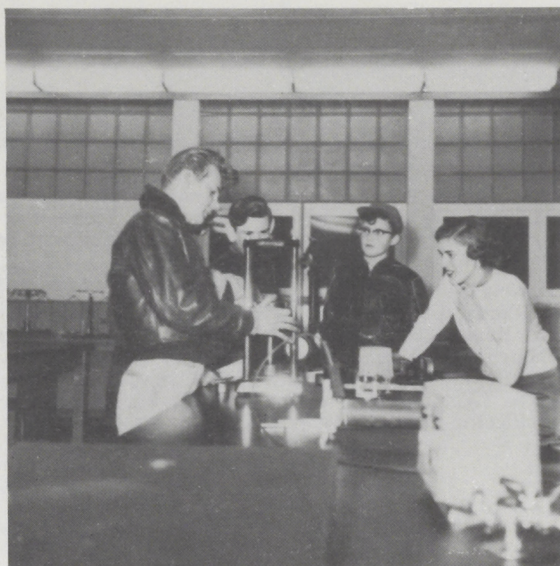

Under the direction of Cheer Captain Sharon Pook the cheerleaders made their first appearance at the Olds School of Agriculture at a basketball game on January 23rd. Other cheerleaders are Joyce Budesheim, Louise Terzi, Helen Ougden, Sandy Wheatcroft, Lorraine Waklich, Sonja Veitch, Marie Shatford, Karen Moller and Sharee Neeland.

The uniforms, in Tech colors, consist of short white pleated skirts, black sweaters with a large green and gold T in front, and white shoes and socks.

Yea! Cheerleaders!

## OPEN HOUSE

### INTERESTING?

This was the first night of Tech Open House. The time was 7:30 p.m., and the day was Wednesday, February 6th, 1957. Everywhere you looked you could see nothing but throngs of people pouring in and out through doorways.

Thursday night was no different either, as people wandered from department to department inspecting the shop equipment and displays.

There were busy hands, too, around the shops (or so it appeared) trying to show Mr. and Mrs. Citizen just what goes on behind the doors at Tech. Over in B building a full-size house was being built indoors by students of Construction Technology. Art students could be seen making jewellery, doing leathercraft or, just plain puttering around. Lab-Techs were producing their usual odors, as were students of Food Service Training. The girls of Dressmaking sat around with sewing on their laps, attentively watching any boys who happened to stray through, while Radio students were busy trying to keep out of the way of people who jammed that department. Meanwhile over in the E building a secretary could be seen demonstrating the blueprint machine. Boys, particularly, seemed fascinated by this process, but it is doubtful that this was brought about by the machine.

Friday was open house to students of other schools who were taken on guided tours by students and staff members of Tech. Needless to say students left in classes took more interest in the "tourists" than in their work.

All in all it was quite an affair and another "feather in Tech's hat".

### IT DOES WORK

## TECH ART DISCUSSION GROUP

This year the Art Discussion Group enjoyed its most successful year to date, due largely to the increased interest and co-operation shown by its membership.

Discussions were held on a variety of subjects of interest to art students; the aim of the organization, to broaden the cultural experiences of its membership, was generally upheld.

This year, too, saw the group give birth to another organization, one that will aid in keeping alive the many friendships of student-days when those days have long since passed and, at the same time, serve to further the original purpose of the mother group. Tentatively, it has been called "The Calgary Young Contemporaries" and its purpose is to draw together student and graduate alike into an exhibiting group. Through it, local exhibitions would be held and eventually it is hoped exhibits on the Western and Eastern Art Circuits would be arranged. The young Alberta artist would at least take his rightful place on the Canadian Artistic Scene.

The Art Discussion Group's Executive this year are: President, George Wood; Vice-President, Deli Sacilotto; Secretary-Treasurer, Fred Owen; Aide, Les Graff; Programme Committee, Doug Haynes and Ken Samuelson.

## DRAMA SOCIETY

Our little thespian group got away to a late start this year, but that however, didn't put a damper on a successful year. Just before the Christmas holidays we put on two noon-hour performances of Dickens's Christmas Carol. Scrooge was wittingly played by Fred Owen, Cratchett by Bob Fredericks and Tiny Tim by Zoe Sturdy. Many thanks are extended to all those—and there were many—who worked behind the scenes and helped to make this show a tremendous success. Many of the audience returned for the second performance, enabling us to boast of a profit.

The Drama Society entertained with short humorous skits at the Banquet again and at other social events at Tech.

At the time of writing, our Easter show was under preparation and promised to be more successful than "A Christmas Carol" was.

Our staff sponsors are Mr. Ken Sturdy and Mrs. M. Nicoll. Fred Owen is President and Pat Kirkby is Vice-President.

## FOOD SERVICE TRAINING

The Food Service Training Club (group of 20 students) was formed with the study of foreign foods as one of its main objectives. Once a month a party is held and one or more foreign foods is prepared (International Buffet, Russian, Italian, Chinese, Spanish, etc.). Of special interest was the display of decorative Christmas foods held in December. A culinary contest will be held in April between our students and full time chefs in Calgary.

Our teachers—a fine group of people ready and willing to laugh at our silly mistakes, nicknamed to the best of the students' abilities and headed by Sgt. Major Denny (bugle and all). Our heart-felt thanks and appreciation to the student body of the Tech for being our guinea pigs.

## JUDO CLUB

The Judo Club commenced the 1956-57 activities late in September under the staff sponsorship of Mr. Lofthouse and the guidance of several of the 1955-56 class.

The interest shown by the Institute students has necessitated the purchase of an additional mat. The club offers instruction under Blue Belts, Yosh Fujimoto and Bob Schultz.

F. PRIESTLEY-WRIGHT.

## KILO-VOLT-AMP CLUB

The K.V.A. Club in its second year of existence, has a total membership of 40 students. With an allotment from the Students' Association plus the membership fees the club was able to carry out most of the planned activities for the year. These included field trips to a Calgary power station, the building of a book cabinet for the various books and pamphlets acquired by the club, inviting guest speakers, showing films, and getting the club better recognized by acquiring club jackets.

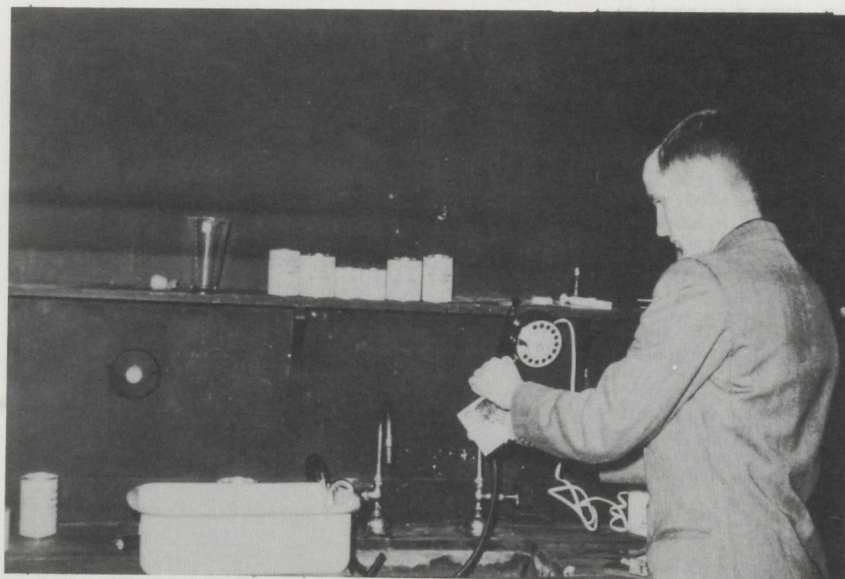

The executive this year consisted of Fred Podovnikoff as President, Bob Driscoll as Vice-President, Brian MacAulay as Secretary, and a social committee of Ernie Pshyk and Harry Lundy. Mr. Ayles acted as staff sponsor.

## CAMERA CLUB

The Camera Club was active for its third year during which many pictures were made and exhibited.

More equipment was added to the darkroom this year.

Officers for the year were: Grant Daff, President; Earl Graham, Vice-President, and Fred Podovnikoff, Secretary-Treasurer.

THE VILLIAN AT WORK

## TECH FILM CLUB

The club was first organized in October, 1956, and has had a successful year. Credit for this can be attributed to the able and willing guidance of our staff sponsor, Mr. A. Fitzpatrick.

The club presented programmes of entertainment and instructive films twice weekly during lunch hour throughout the winter season. The Executive this year was headed by Harry Boychuk, president; Lorraine Waklich, secretary; Bob Toone and Earl Graham, technical managers; Zig Draesner and Sonja Veitch, general manager; Lorena Norton, stage director, and Chuck Smith, production manager.

Congratulations should be extended to the club Executive who helped make the organization a great success.

## SKI CLUB

After being inactive for a year, the Tech Ski Club was reorganized this fall under the staff sponsorship of Mr. L. R. McIlveen. The purpose of the club is to get together all the students at Tech who ski or would like to learn to ski and assist those would-be skiers.

The executive of the Ski Club consists of: John Robertson, President, and Gladys Johnson, Secretary.

The club members, all of whom belong to the Calgary Ski Club, are planning to make several excursions to the ski slopes of the Banff-Calgary region during the winter and early spring.

BETTY OLIPHANT.

## SURVEY CLUB

The Survey Club started the 1956-57 year with a membership of forty-two. Twelve of the members are from the second year and the remaining thirty from the two first-year classes. The President of the club is James Ewing, the Vice-President is Maurice Jones and the Secretary-Treasurer is Reg Wickes. This year the club is planning a field trip to the Anaconda Copper Refinery in Great Falls, Montana. It is also planning a few evenings for films and lectures from prominent surveyors, engineers, and other professional speakers. The club is going to sponsor one of the Friday night dances with the proceeds going to some charitable organization.

## EMERY WEAL

(NEWSPAPER OF THE STUDENTS' ASSOCIATION)

The Emery Weal came into existence in 1926 and has been growing ever since that first issue. Even in the last two or three years, this student newspaper has expanded and grown up in many ways, to meet the growing demands of a larger student body on this campus.

The function of the Emery Weal has been to publish news of student activities, to promote technical information, exchange opinions, bolster "morale" (when needed), and generally inform its readers of news and views of things that affect a Tech student's life. The success of this paper has depended on the active support and interest of thinking young men and women on the paper's staff, and its readers.

The Emery Weal has experienced progress again, this year. The changeover to a "new" printer has proved a forward step. The printing has been the best yet. The Emery Weal staff took over its own proofreading, ensuring accuracy, and reducing costs. Circulation was greater this year. Advertisers reported that students were responding to their ads.

I would like to express thanks to all the editors, reporters, and typists who made up this year's capable staff, and gratitude to Business Manager Maurice Jones for doing such a fine job. Appreciation, too, goes to our staff sponsors for their help and encouragement.

It is my hope that the Emery Weal will, in the near future, continue to grow, and be recognized as a vital part of this Institute.

# Preparing for a lifetime of progress

*He has the urge to be where "big things" are happening... so he is studying engineering.*

Wherever you go in Canada today you can see the work of the professional engineer whose vision, initiative and orderly thinking are vital to progress in this swift-moving technological age.

When you flip a switch at home an amazingly intricate system of power equipment goes to work for you.

Electricity cannot be made and stored—it is made and delivered instantly at the speed of light. In effect, you reach back from your switch through wires, meters, transformers, substations, switch-gear, generators, turbines—right to the very source of power. This incredible process... safe, reliable and low-priced... has been made possible through the skills of professional engineers.

Less than 20 years ago only about one in 700 workers was a graduate engineer... today there is 1 to every 150 workers. At Canadian General Electric we employ nearly 1,000 engineers—approximately one to every 20 employees—and more are constantly needed to keep pace with the increasing demand for equipment to generate and transmit electric power and the many products which put it to work.

For over 50 years this Company has conducted a training programme for engineering graduates. In our plants, they acquire an intimate knowledge of the theoretical and practical principles of manufacture, design and installation. Known as the "Test Course" it has provided important postgraduate training for many of today's professional engineers in various fields of Canadian industry.

The future holds many engineering opportunities in Canada, where people are so electrically minded that the demand for power *doubles every 10 years!* Right now engineers are busy on products, projects and in industries that didn't even exist a few years ago, when many electrical developments, such as television, were practically unknown.

Canada's first atomic electric power plant presents one of the greatest engineering challenges of our time. It is being built by Canadian General Electric for Atomic Energy of Canada Limited and Ontario Hydro. This is just one of many great projects that exemplify the major role being played by professional engineers... key men in our nation's progress.

Looking around a Texas ranch, the city man was startled to discover a large pond with several bell-ringing buoys floating on its wind-swept surface.

"What in the world!" he exclaimed to the rancher. "I thought buoys were navigational aids."

"Certainly," the Texan responded. "That's why we have them. You see, this is such a large ranch that the cows would never find the pond if it weren't for the sound of the bells ringing in those buoys."

Wondering if his leg was being pulled, the city man exclaimed, "Oh, come on now, you're kidding me, aren't you?"

"Kidding you," the rancher said in a hurt tone, "do you mean to tell me you never heard of cow-buoys?"

**CALGARY HERALD**

The Calgary Herald performs this invaluable service for the people of Calgary and district, which is no doubt why the people of Calgary and district buy more than 60,000 copies of the Herald every day.

Wherever your interests may lie, be it sports, fashions, politics or any one of the hundreds of things that touch our daily lives, you will be more interested, and you will be more interesting, when you have read the Herald every day.

**NOW** — is the time to start making the Calgary Herald a part of your daily life.

*The*  
**CALGARY  
HERALD**

A Division of The Southam Co. Ltd.

*Serving Southern Alberta Since 1883*

In the parlor were three,  
He, the parlor lamp, and she;  
Two is company, there's no doubt,  
So the parlor lamp went out.

☆ ☆ ☆

MUCH ADO—

I love to watch the rooster crow,  
He's like so many men I know,  
Who brag and bluster, rant and shout,  
And beat their manly chests,  
Without a doggone thing to crow about.

☆ ☆ ☆

NOT SO DUMB—

A big fur coat, a new sport car,  
A persian rug, and a built-in bar.  
Five years ago, some teaching hick  
Flunked that girl in arithmetic!

ALBERTA'S LARGEST SCHOOL SUPPLY HOUSE

(Established 1905)

112 Eighth Avenue West

CALGARY, Alberta

A man was perched on the ledge atop one of Richmond's tallest building contemplating suicide, and a policeman had made his way up to the roof to try to persuade him not to jump.

"Think of your mother and father," pleaded the officer,

"Think of your poor wife and family."

"Haven't any."

"Think of your girl-friend."

"Hate women."

"All right, then think of Robert E. Lee."

"Who is he?"

"Jump, you damned Yankee!"

☆

☆

☆

Hum, you kin always find a parkin' space when you ain't got a car.

### **Food for Body and Mind**

Whatever skills you learn at "Tech" and whatever trade you follow in the future you should always remember that the food which will sustain you through life is produced from the soil.

Specialized skill is valuable, but general knowledge and broadmindedness are also important. All sections of people are dependent on each other but none can exist without food. Everyone should realize and appreciate the importance of the service rendered to society by the farmer and see that his problems receive fair consideration.

A long married Tech. couple was sitting in the living room. He was asleep in the easy chair and she was boredly watching television. Suddenly a tornado struck with great violence. It ripped the roof off the house, picked the man and woman up, swirled them into the air and deposited them gently a mile away from home. The husband, seeing his wife sobbing, said: "Stop crying, can't you see we are safe?"

She whimpered: "I'm just crying because I am so happy. This is the first time we've been out together in ten years."

"A good day's work never killed anyone.  
Neither did a good day's rest."

☆ ☆ ☆

He: I'm studying to be an actor.  
She: How are you getting along?  
He: Great, I can sleep until noon already.

☆ ☆ ☆

Frank asked—Marg refused.  
Frank begged—Marg blushed.  
Frank argued—Marg hesitated.  
Frank insisted—Marg resisted.  
Frank tired—Marg surrendered.  
So Frank carried Marg's books from the car line.

Some folks kin see the clouds but never the silver lining.

A bartender was wiping off the bar one day  
when a drunk staggered in and slumped over the  
bar.

"Say can you tell me who runs the Alcoholics  
Anonymous around here?" he asked.

"Why? Do you want to join?" the bartender  
asked.

"Nope," said the drunk, "I want to resign."

Man is the only animal that can be skinned more than once.

The advertisement for Alpha Jersey Dairy features a cartoon milkman on the left, wearing a cap with the word "Alpha" and holding a milk can. To his right is a large, dark oval logo containing the text "ALBERTA'S *Finest* DAIRY PRODUCTS". Below the logo, the word "Alpha" is written in a large, stylized font, followed by "JERSEY DAIRY". To the right of this, the phone numbers "PHONE 25426 24426" are listed. Small floral illustrations are scattered around the bottom of the logo and the word "Alpha".

A woman will look in the mirror any time—except when she's pulling out of a parking space.

☆ ☆ ☆

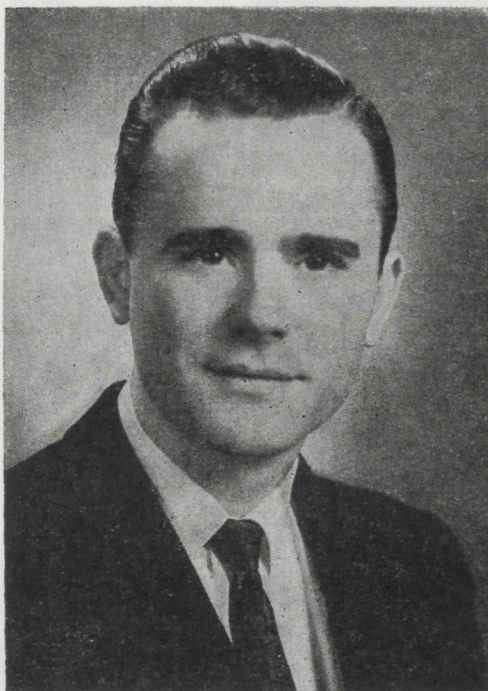

A Tech student peered over the edge of the stationery counter at the ten-cent store and asked hopefully: "Have you any blank report cards?"

☆ ☆ ☆

What a man usually hates about a formal dress-up occasion is the fact that he has to shave twice, the first time before he dresses and the second time after his wife is finally dressed.

☆ ☆ ☆

A girl becomes unpopular with other girls when her motto is "Every man for herself".

*All Finished ?*

*No, just beginning,*

*The future's yours,*

*Plan it now.*
